SURGICAL IMMERSIONS WORKSHOP

Different oncologic pathologies follow many and various routes of development in current times.

Daily surgery practice and performance is one of our main concerns, and it is also the end point of our learning process.

The practical aspects of surgery will be approached and updated in the course of these Oncologic / Kidney Transplant / Urology immersions workshop form the most basic concepts to the most controversial ones.

They are addressed to urologists and other medical staff practising uro-oncologic surgery.

Workshop Development

This immersion workshop will be carried out in the operating theatre, and in only one day the participants will be directly involved in four surgeries to be performed by our centre urologists. An educational talk on the technical details of the operations will be held the day before the surgeries.

The aim is to spend two intensely active days during which we will address all basic and practical aspects in a constructive mood, with the purpose of promoting wide interaction between surgeons and attendees.

Workshop Objectives

- **Surgical Technique**
Basic anatomical concepts and practical demonstration by means of surgical videoclips.
- **Live surgeries**
- **Identification and management of intra-, peri-, and post-operative complications in each of the techniques used.**

Addressed to

Urologists and specialists interested in managing patients with uro-oncologic tumours.

Methodology

- Introduction and discussion of clinical cases
- Visualisation of surgical videoclips
- Live surgeries

Calendar

Tuesday / 10 January 2017

18:00 - 18:10 h. Welcome

Dr. J. Palou / Dr. A. Breda

18:10 - 18:40 h. Renal cancer: the limits of laparoscopy

Dr. J. Palou

18:40 - 19:10 h. Partial nephrectomy: Technical aspects

Dr. A. Breda

19:10 - 19:40 h. Laparoscopic nephroureterectomy: YES or NO

Dr. O. Rodríguez-Faba

19:40 - 19:50 h. Questions

19:50 - 20:00 h. Case presentation

Dr. A. Breda

20:30 h. Dinner

Wednesday / 11 January 2017

9:00 h. Welcome at Fundació Puigvert

9:30 h. Operating Theatre B

Laparoscopic living donor nephrectomy

9:30 h. Operating Theatre C

Laparoscopic nephroureterectomy / radical nephrectomy

13:00 h. Work lunch

14:00 h. Operating Theatre B
"Zero ischemia" retroperitoneal partial nephrectomy

14:00 h. Operating Theatre C

Transperitoneal laparoscopic partial nephrectomy

17:00 h. Closure

Evaluation

Attendance control
Course satisfaction survey
